Table of Contents: Volume 11 (2000)

Number 1

Special Issue on Integration of Process Planning with Production Planning and Control of Flexible Manufacturing Systems
Guest Editors: Gerard J.C. Gaalman, Jannes Slomp and Nallan C. Suresh

Towards an Integration of Process Planning and Production Planning and Control for Flexible Manufacturing Systems ..... *Gerard J.C. Gaalman, Jannes Slomp, and Nallan C. Suresh* 5

A Simulation Study of an Object-Oriented Integration Testbed for Process Planning and Production Scheduling ..... *Daguang Zhang and Hong C. Zhang* 19

A Cascading Auction Protocol as a Framework for Integrating Process Planning and Heterarchical Shop Floor Control ..... *Patrick McDonnell, Glen Smith, Sanjay Joshi, and Soundar R.T. Kumara* 37

Analogy-Based Multiple Process Planning System with Resource Conflicts ..... *David Ben-Arieh and John Wu (Chih-Hang Wu)* 63

A Comparison Between Machine Flexibility and Routing Flexibility ..... *Hitoshi Tsubone and Mitsuyoshi Horikawa* 83

The Effects of Workstation Flexibility on the ($N \times N$) Job Shop Problem ..... *K. Pflughoeft and George K. Hutchinson* 103

Contributing Authors 115

Instructions to Authors 119

Number 2

The Structure of Manufacturing Systems: Insights on the Impact of Variability ..... *John A. Buzacott* 127

Average-Cost Optimal Policies for an Unreliable Flexible Multiproduct Machine ..... *Suresh P. Sethi and Hanqin Zhang* 147

Component Partitioning Under Demand and Capacity Uncertainty in Printed Circuit Board Assembly ..... *Wei-Liang Lin and Valerie Tardif* 159

A Column-Generation Approach for the Assembly System Design Problem with Tool Changes ..... *Wilbert E. Wilhelm* 177

Contributing Authors 207

Instructions to Authors 209

Number 3

A Generic Model to Solve Tactical Planning Problems in Flexible Manufacturing Systems ..... *Mustafa Kubilay Atlihan, Sinan Kayaligil, and Nesim Erkip* 215

Representing the Material Handling System in Tractable Queuing Network Models of Flexible Manufacturing Systems: A Workload Data Aggregation Approach ..... *David De Almeida and Patrick Kellert* 245

The Effects of Scheduling Rules and Routing Flexibility on the Performance of a Random Flexible Manufacturing System ..... *Farzad Mahmoodi, Charles T. Mosier, and John R. Morgan* 271
Evaluating Virtual Cells and Multistage Flow Shops: An Analytical Approach ..... *Asoo J. Vakharia, Jaya P. Moily, and Yuanshu Huang* 291
Contributing Authors 315

Number 4

Special Issue on Electronics Manufacturing
Guest Editors: Izak Duenyas and Medini Singh

Order Release and Product Mix Coordination in a Complex PCB Manufacturing Line with Batch Processors ..... *Rohit Bhatnagar, Pankaj Chandra, Richard Loulou, and Jin Qiu* 327
Control of an Assembly System with Processing Time and Subassembly-Type Uncertainty ..... *Matthew F. Keblis and Izak Duenyas* 353
Lot-Sizing for Substitutable, Production-to-Order Parts with Random Functionality Yields ..... *Yigal Gerchak and Abraham Grosfeld-Nir* 371
Multiple-Objective Scheduling for the Hierarchical Control of Flexible Manufacturing Systems ..... *Ling-Feng Tung, Li Lin, and Rakesh Nagi* 379
Contributing Authors 411
Instructions to Authors 413
